DEPARTMENT OF TRANSPORTATION AND COMMUNICATIONS

DEPARTMENT ORDER NO. 2010-22

SUBJECT : DETERMINATION OF ROUTE MEASURED CAPACITY (RMC)

The determination of Route Measured Capacity (RMC) for land transport routes as a factor for measuring public necessity in resolving franchise applications/petitions is a component of the Department's primary policy, planning, implementing and regulating functions for land transportation.

The assignment/transfer of this function to the Land Transportation Franchising and Regulatory Board (LTFRB) is inconsistent with the DOTC's mandate in the promotion, development and regulation of dependable, efficient and coordinated networks of transportation.

Moreover, the assignment/transfer of this function to the LTFRB has resulted in the franchising of too many public utility vehicles.

Accordingly, the LTFRB will forthwith cease and desist from discharging the function of RMC determination which will now be discharged by this Department.

All existing policies, orders, circulars and other issuances conflicting and/or inconsistent with this Department Order are deemed revoked or accordingly amended to conform hereto.

This Department Order takes effect immediately.

23 July 2010

JOSE P. DE JESUS
Secretary
